Please make checks payable to: **Patty Monroe**
Allow 2-3 weeks for delivery.
Special Orders: Send drawing of exact size.
Most special orders run $6.00 (if more I'll call)

INSTRUCTIONS

Wash clothing or fabric to remove sizing. (no fabric softener!) Place a piece of **wax paper** inside the shirt or under the fabric to prevent fabric paint from bleeding through fabric. Remove staples from multi-piece stamps.

We recommend you use a 1" wide -**wooden handle**- sponge brush to apply the fabric paint to the stamp.

Purchase a "**brush on**" fabric paint from a craft store or directly from us. **Thin paint with a little water if needed**. Do not use a fabric paint that is made to outline with, such as Scribbles or Slick paint. We suggest Jacquard fabric paint.

If you are planning to print on **dark** fabric, please use a fabric paint that is formulated for dark fabrics. Such as Jacquard's **opaque** paint. (I usually double print dark fabric)

Using the flat side of the sponge brush, **PAT** the fabric paint onto the stamp using an "up and down" motion. This will cause tiny **bubbles** to form. Make sure the paint is evenly distributed over the entire surface of the stamp. (you will have little bubbles covering the stamp)

Firmly press the stamp onto the fabric, and apply even pressure over the back and edges of the stamp. If you are using a **multi-piece** stamp, leave the first piece down on the shirt and fit the other pieces into it. Then lift the stamp straight up while holding fabric down.

If your print is too **light**, re-apply more paint to the stamp and re-stamp over the original print to **double-print**. Just align one point and lay the stamp back down over the first print , being careful to match the edges.

Let **dry** for 12 hours. **Heat set** your fabric by ironing on the wrong side for 1-2 minutes. After heat setting, you may want to add glitter or outline with fabric markers or paint. Add wiggle eyes and rhinestones , too.

Before letting the stamp dry, **clean grooves** out with a toothpick. Then wipe stamp off with a damp paper towel and let the stamp dry. When the stamp is dry you can change to any color. (In a hurry? Blow dry the stamp)

Face Stamping & Body Tattooing
Use acrylic paint (such as Ceramcoat) and pat onto stamp.

Do Not Put The Stamps In Water.

KNOB CAN BECOME CHOKING HAZARD IF UNATTACHED
